Tilegram Mimic System

1. Standard Tilegram Mimic Cabinets are constructed from an aluminium extrusion into which is fitted a white faced steel back plate mounted onto 12.5mm thick external plywood. Standard cabinet dimensions are shown on drawing MDS200/1. Please note: Non-standard sizes are also available.

2. Tiles are manufactured from 1.5mm thick laminated p.v.c and come complete with engraved symbol/text and magnetic rubber to our drawing MDS100/2. Each Mimic is fully bespoke, some with completely bespoke tiles.

3. Key cabinets, either wall-mounted or mobile, are manufactured from mild steel, powder-coated white (unless otherwise specified) and range from single key to eight key. All key numbers are logged, and replacements are available. For further details, see drawing MDS200/1.

4. ME Safety signs are made from rigid white 3mm thick p.v.c. Design and colours conform to BS5378:1980 and 5252:1976 and are drilled for either wall mounting or temporary fixing. Temporary signs come complete with a 300mm red or yellow nylon cord for hanging. Bespoke signs also available.

5. Accessories include: Padlocks, Key Tags, Lock off hasps, labels and signs etc.
